

CLIMATE CHANGE FRAMEWORK

GOOD GUIDANCE

sustainable economic growth devalues the word SUSTAINABLE

More evidence on behaviour change success

1. ACCESSIBLE ADVICE

- Use website to share this
- Use new technologies – e.g. Skype
- more important that it is coherent than accessible

2. COMMUNITY CONTROLLED WEBSITE

- Members only – for confidentiality
- and use Facebook and other media more
- do communities have the time to maintain this?

5. LEARNING FROM EACH OTHER

Skills matrix

12. CLEAR MEASURES OF SUCCESS

- Should these vary or be common?
- Hases and have nots

PROMOTING PARTNERSHIP

Changing partner attitudes need both sides to change

4. POSITIVE PARTNERSHIP ATTITUDES

- Two way process!
- Need to understand other perspectives

6. L.A. ROLE AS KEY ENABLER

- And other groups too
- This can vary depending on geography

9. SIMPLIFIED FUNDING

- Higher priority?
- Sharing resources with others
- And LONG-TERM funding
- too many separate grant pots – SEE 3
- permission box to share experience
- Should it be simpler? two-edged sword
- Capital Fund – for investment

NEW BARRIERS?

Need help to build strong community leaders

Access to land for communities

Land banking

ENCOURAGING LEADERSHIP

13. A VOICE FOR THE COMMUNITY SECTOR

- CCF policy needs to reflect the diverse geography
- Sector is diverse
- Access to decision makers
- higher priority

14. AWARDS FOR SUCCESS

A FERTILE WIDER CONTEXT

Need stronger links to the health sector

3. MERGING CLIMATE CHANGE INTO WIDER LOCAL AGENDA

- Can we sell CC better in a wider context?
- Higher priority?
- Linked to 7 and 8

7. SUPPORTIVE POLICY / LEGISLATION

How to access the decision makers to help?

8. NATIONAL VISION AND PURPOSE

- Should this be done bottom up?
- Or together?
- risk that this might cut across local action

10. MUTUALITY – A LEVY TO HELP OTHERS

- more important?
- Or not needed?
- Fantasy?

11. BACKING COMMUNITIES OF INTEREST
